The RBSTC Board of Directors Meeting is held on the 3rd Tuesday of every month in the Club 21 Room!

Wayne's World – The winter weather is almost behind us and we are getting ready for warmer weather. As you may be aware, we had to close the Club for 3 days for the purpose of tenting our buildings for termites. There will be another month's worth of construction work going on as we repair damaged areas. The Club will remain open but there will be areas marked as construction zones and some areas of the Club will be closed for short periods of time. Our oldest buildings are 50 years old and we intend to make sure that they will be sound for the next 50 years. We appreciate your patience and understanding during this period of construction.

Our staff is always looking for ways to encourage members to get involved at the Club. Right now they are busy planning for the upcoming "Casino Night" for our St. Patrick's celebration. There will be prizes, food, and drinks. This is a great opportunity for our members to meet and have a fun evening. The Corned Beef sliders were awesome last year and the addition of the casino activities will make this an even more memorable evening. Additional upcoming events will include, a mixed doubles tennis social and our Cinco de Mayo party. Mark your calendars and meet new friends at the Club.

"Casino Night" – The Luck of the Irish!

When? Saturday, March 16

Time? 6 – 8 PM

\$10 per person (**21 and over – Members ONLY**)

Food & Drinks included!

(Corned Beef Sliders, Potato Salad, Beer, Wine, Soda & Water)

Great Prizes Will be Given Away!

***** MUST sign-up & pay in advance at the front desk *****

Thanks to our members and staff, we collected 270 pounds of food for the needy, which was delivered to North County Interfaith Services. Additionally, I would like to thank everyone who contributed to our Staff Christmas fund. Our staff is very committed to making our Club great and they really appreciate that our members value them.

The upgrades to our back gate located off Pomerado Road have been completed to enhance our parking options. In addition to new signage, there is now a card scanner where members can check in plus awnings over the entrance and a waiting bench located inside the gate. Many members may find it more convenient to park in this lot as there is always plenty of parking there. We are encouraging parents of students who come to the Club for classes to use this entrance as there is a much larger area for picking up and dropping off students and the covered waiting is inside the safety of the Club as

opposed to the current lot that has students waiting outside and in the heavy traffic area. Hopefully, this will relieve some of the traffic congestion in the main lot.

Be sure to check out the Club's website at www.rbstc.com for information on what is happening at the Club. There is a calendar of events, forms for the Architectural Committee, copies of newsletters, and more.

Finally, your ballot for electing new members for the Board of Directors is enclosed. This is an important way for you to have input into the running of your Club. Please read the attached write-ups for the candidates and make your vote count. The new board will be installed at the Club's annual general meeting on March 26. All members are encouraged to attend. If you have input or questions for the Board, please come.

I want this Club to be a source of pride for all members and am always looking for ways to offer more value and service to our members. Please don't hesitate to contact me with your comments and suggestions.

Battery Recycling - Thanks to the efforts of club member, Frank Schmidt, the Club is now a collection point for recycling of household batteries. Frank volunteered to coordinate this activity for the Club. You can bring your old AA, AAA, 9V, 3V batteries to the Club in a zip-lok bag and we will collect them and Frank will make sure that they get properly recycled. This is important since many of them end up in regular household trash in landfills and are a long-term source of pollution. Do NOT include rechargeable batteries, as we cannot accept them. You may take rechargeable batteries to the local Home Depot and they will dispose of them. Do your part to make our planet green for future generations. Thanks for the great effort, Frank!!
